PROFILE

Full-Stack Software Developer (React/Next.js, Node.js, .NET, Azure) with 3+ years of experience building web, mobile and desktop applications from architecture to production, including CI/CD with Azure DevOps. Additionally about 2 years as an IT administrator (Windows Server, Active Directory, networking, backup) for around 40 companies, about 4 years of IT experience in total. Independent and structured, experienced in agile Scrum teams and in using AI tools (Claude Code).

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, C#, SQL

Frontend: React.js, Next.js, Angular, React Native, Expo, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, .NET Core, .NET Framework, ASP.NET Web API, WCF, WPF, Entity Framework Core, Convex (BaaS)

Databases & ORM: PostgreSQL, Microsoft SQL Server (MSSQL), MongoDB, Prisma, Sequelize

APIs & Security: REST APIs, GraphQL, authentication and authorization, two-factor authentication (2FA)

Testing: API testing with Postman, manual testing

DevOps & Tools: Azure DevOps (CI/CD pipelines), GitHub Actions, Docker, Git

Cloud: Microsoft Azure, AWS (EC2, VPC, VPN)

IT Administration: Windows Server, Active Directory, DNS, user and permission management, Group Policy (GPO), virtualization, backup and recovery

Network & IT Security: Switches, VLANs, WLAN, site-to-site VPN, FortiGate firewall, antivirus/endpoint protection

IT Support: Helpdesk (phone and on-site), onboarding and offboarding, business application support, IT documentation

Methodology: Agile, Scrum, sprint planning, system design, AI-assisted development (Claude Code)

Basic Knowledge: Kubernetes, Apache Kafka, ETL pipelines, Pandas, AWS S3, AWS Glue

Certifications (in preparation): AWS Certified Solutions Architect – Associate; Microsoft Certified: DevOps Engineer Expert (AZ-400)

PROFESSIONAL EXPERIENCE

Software Developer (Full-time, Freelance)

Riverbird GmbH and sister company Falcon Secure GmbH, Germany (Remote) | 02/2024 – 06/2026

- Led end-to-end development of 5 production applications in the Riverbird RMM ecosystem for IT monitoring, inventory management and patch management across web, desktop and mobile.
- Built the RiverSuite mobile app with React Native for iOS and Android, owning the full lifecycle from architecture to production release.
- Built the FalconSecure mobile app for Falcon Secure's IT security platform with React Native and TypeScript, implementing features based on business requirements.
- Built responsive UI components for the Riverbird web app and integrated frontends with REST APIs, optimizing data flow and performance.
- Set up Azure DevOps CI/CD pipelines (automated build, test and deployment), significantly reducing release times.
- Ran performance analyses to identify the most-used services and bottlenecks and drove data-driven optimizations.
- Gathered requirements with cross-functional teams and contributed to code reviews to uphold best practices and standards.
- Worked in an agile Scrum environment with two-week sprints; resolved complex bugs and improved application stability and development efficiency.

Freelance Software Engineer

Upwork – Nile Tech (Remote, international clients) | 06/2023 – Present

- Built cross-platform mobile apps with React Native for iOS and Android, including a security-focused app with two-factor authentication (2FA).
- Developed responsive web applications with React and Next.js, and secure RESTful APIs with .NET including authentication and database integration.
- Built a desktop warehouse management system with .NET (WPF) with efficient CRUD operations.
- Set up Azure DevOps CI/CD pipelines and worked in agile sprints with clear client communication.

Freelance IT Administrator

Self-employed, Beni Suef, Egypt (around 40 clients, including PHC) | 03/2023 – 06/2024

- Supported around 40 small and medium-sized businesses in Beni Suef as an external IT administrator, including PHC with 120+ users.
- Administered Windows servers, Active Directory and virtualized server environments, managed users, permissions and Group Policy, and ran backup and recovery.
- Configured networks with switches, VLANs, WLAN and site-to-site VPN (including FortiGate) and secured systems with firewalls and antivirus/endpoint protection.
- Provided IT support, handled onboarding and offboarding, and maintained IT documentation.

IT Administrator (Full-time)

PHC (Pharmaceutical Trading Company), Egypt | 09/2022 – 02/2023

- Maintained IT infrastructure for the headquarters and branch offices with 120+ users and supported users by phone and on-site.
- Installed and configured Active Directory (DNS), biometric access systems, video surveillance (CCTV) and FortiGate firewalls.
- Managed the SQL Server databases of the PharmaChain ERP system and supported the company's three business applications (maintenance, updates, user access); automated employee workflows.
- Designed a hybrid IT infrastructure integrating AWS (EC2, VPC, VPN) with the on-premises environment.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Beni Suef University, Egypt | 2016 – 2020

TRAINING & COURSES

AI Engineering | Udemy, Ed Donner | 2026
AWS Certified Solutions Architect – Associate | Udemy, Stephane Maarek | 2026
AWS Certified Developer – Associate | Udemy, Stephane Maarek | 2026
React Native | Udemy, Stephen Grider | 2025
Web UI/UX Design + Figma | Udemy, Zero To Mastery | 2025
Node.js Developer Bootcamp | Udemy, Zero To Mastery | 2023
Full-Stack Web Developer Bootcamp | Udemy, Zero To Mastery | 2023

LANGUAGES

German: Upper intermediate (B2) | English: Fluent (C1) | Arabic: Native
